

Increase Your Operational Efficiency and Identify Cost Saving Strategies at the Same Time!

With a FREE PRINT ANALYSIS from Precision Print Management, your business benefits from a thorough, complimentary review of the direct and indirect costs associated with purchasing printed materials. With over 35 year's experience, our Print Specialists know how to eliminate unnecessary print expenses in order to improve your bottom line.

Here are some of the factors we analyze in order to supply you with a comprehensive report highlighting our cost saving recommendations for your business:

- Economic Quantity Breaks & Print Specifications address the question of whether your job is being printed on the correct equipment in the most cost effective manner.
- Transaction Costs and Operational Efficiency examine how much time your employees spend ordering, proofing, and tracking print orders.
- Warehousing and Freight Costs look at printing on-demand versus storing inventory.
- Technological Advances may be used to cut expenses and streamline the ordering process.
- Evaluate custom online ordering templates to reduce or eliminate typesetting and artwork cost.

Get Your FREE PRINT ANALYSIS Started Now ...

Here's what you'll need to do:

1. Gather samples of operational and promotional printed items you would like Precision to review.
2. Provide quantities for every item that you would like to be analyzed.
3. Call 1-800-691-7555 or email info@precisiononline.net for a free pick up. Our Precision Print Specialists will do the rest.

That's it! We will deliver your comprehensive report containing innovative cost saving solutions, outlining new ideas and fresh approaches to producing your operational and promotional printed products.
